TO: All Squadron Personnel

As you know, the mission of the 3rd Field Maintenance Squadron has undergone significant changes in the last few months, not only in the mission but in personnel. In addition to providing required maintenance at this base, the squadron has responsibilities for providing technical assistance to other Korean bases, as well as support to SEA. These many varied missions have caused many difficulties, however the squadron mission has been completed with outstanding success.

Since assuming command of the squadron I have observed the enthusiasm and dedication amo ng our personnel to complete the mission and to be the best squadron in the maintenance complex. This desire is evident in the outstanding results we have achieved, and I am proud to be associated with people of this high caliber.

I would like to express my appreciation to all personnel for your outstanding support in all areas. I hope it will be a source of pride in years to come of the important and responsible role you played in helping the 3rd Field Maintenance Squadron perform its vital mission in the Republic of Korea.

"Can you dig it, Ski"

"I miss my yobo"

NDI LAB

I really enjoy my work, too bad this isn't what I do

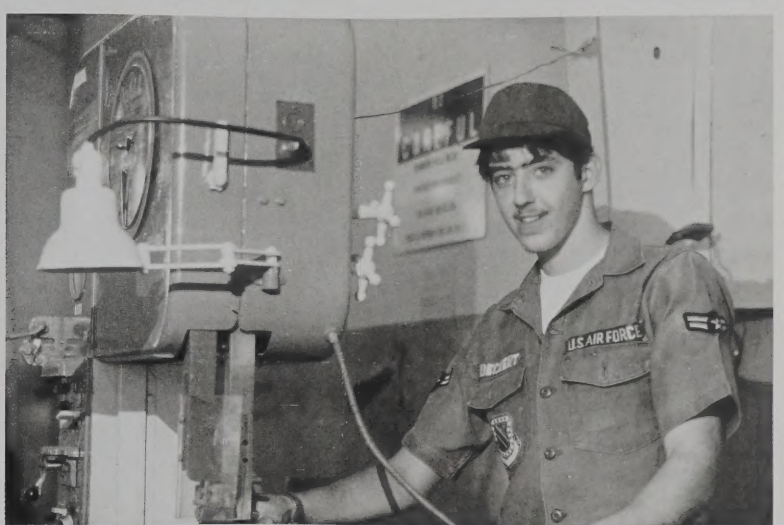
If I turn on, this joint's going up in smoke!

For this I left a ski lodge?

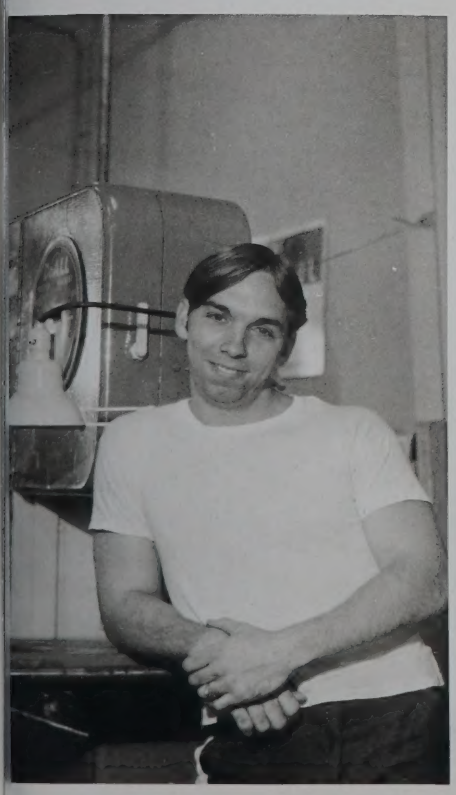
SHEET METAL

How do you spell Donald?

Me get promoted?



The man with the plan with no hand



Hi there fellows? !

Cream of the crop of the S/M Shop

SHEET METAL

What's happening?

Ain't no grass growing under my hat!

"Big all at work"

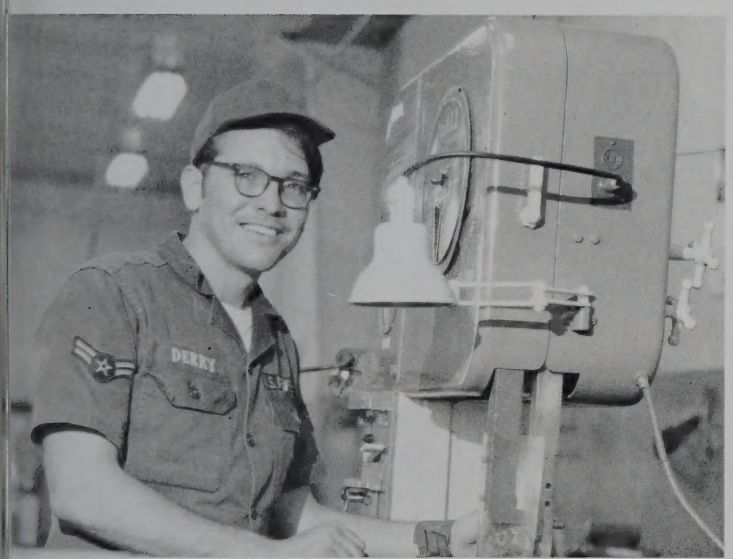
So! that's how you made buck

We got a rabbit in the bunch

Who you are looking at!!

SHEET METAL

I'm just doing this for the photo.



I not as dumb as I look

I love the Air Force

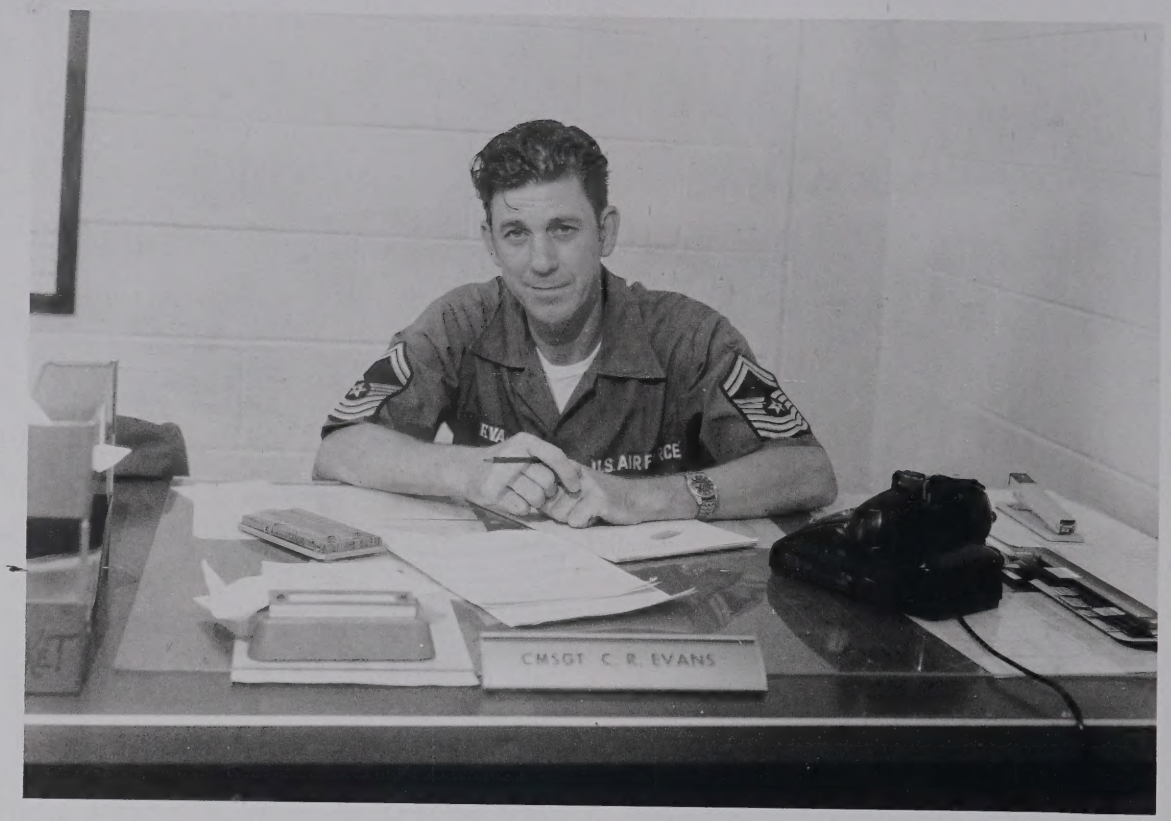
PROPULSION BRANCH



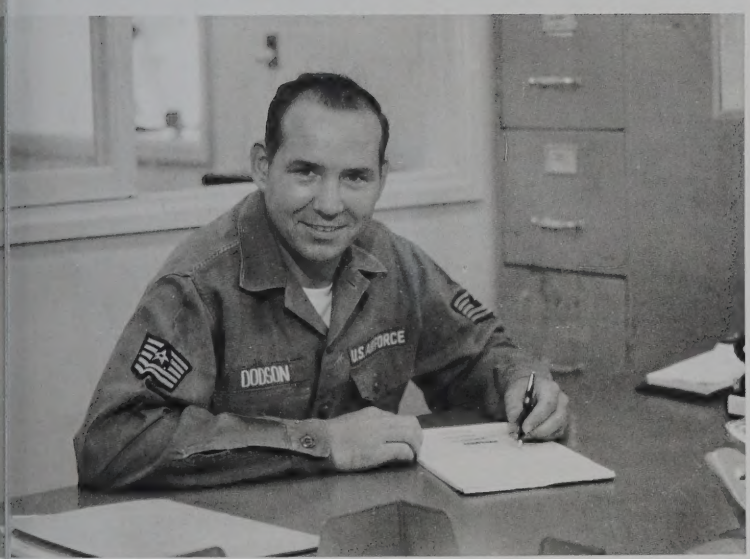
Come on in Cowboy!!

One of these days, I'll make it to the top of this page

PROPULSION BRANCH

That"three-holer" better not be late

They say I'll make TSgt if I don't get a spare on the line



It's time to write my"sweet thing" again

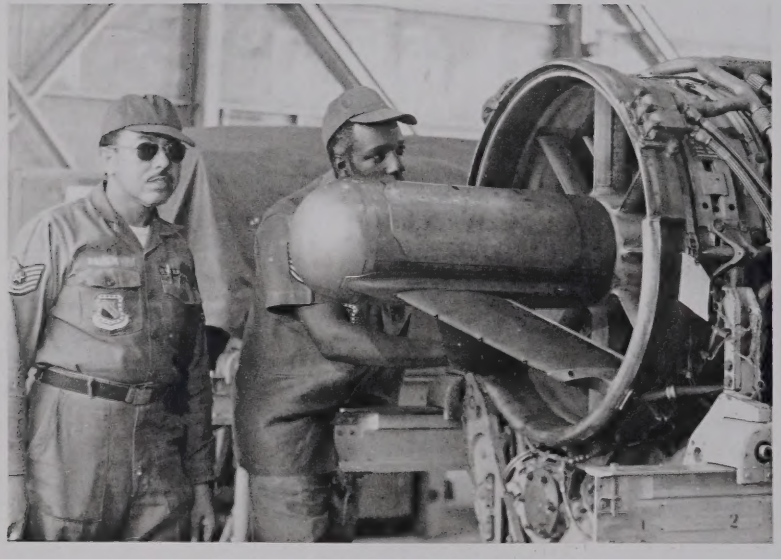
I've been here too long, my eyes are beginning to slant

I have a problem

Parts! Parts! all I ever hear is wheres the "DIFM" parts

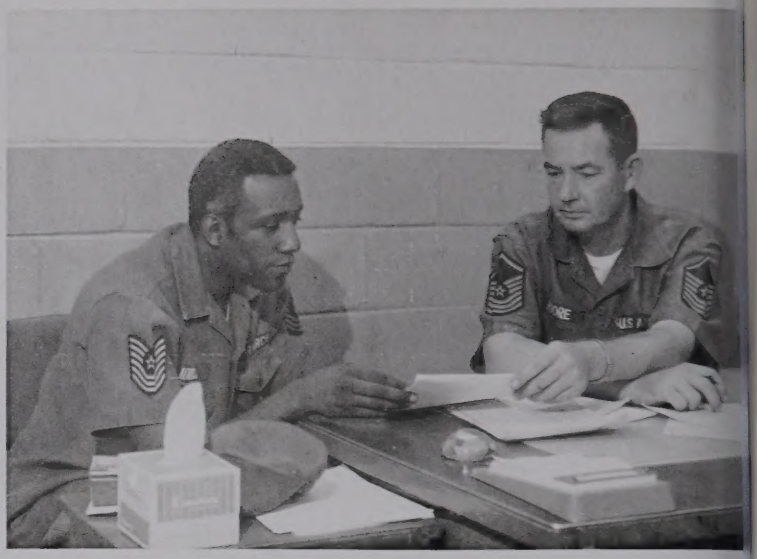
PROPULSION BRANCH

Hey Faulk, the sun ain't shinin' in here



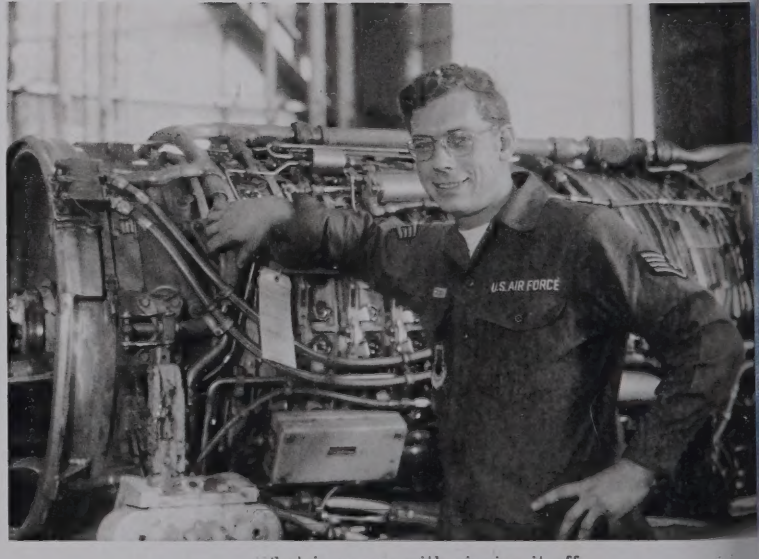
Sgt Jones I hope you don't see my fod

This is my favorite passtime
leaving on an engine



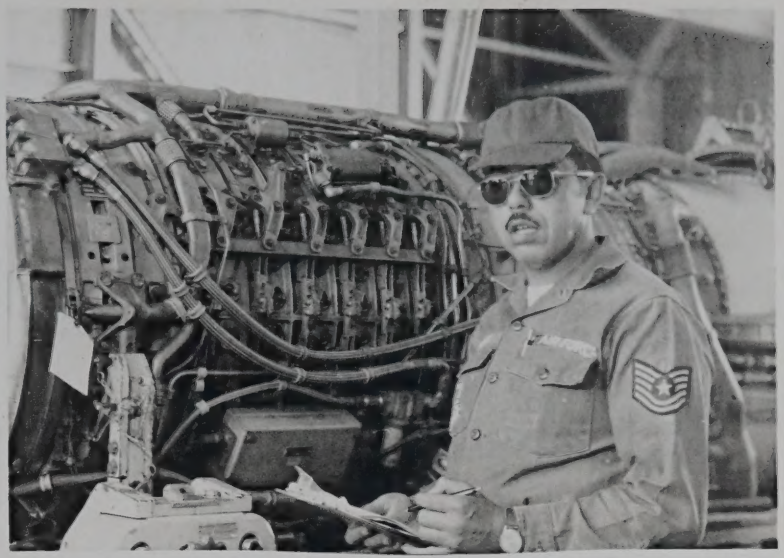
Sgt Jones, I don't care what it says,
I can walk on water

I'll get this place straight yet, wright



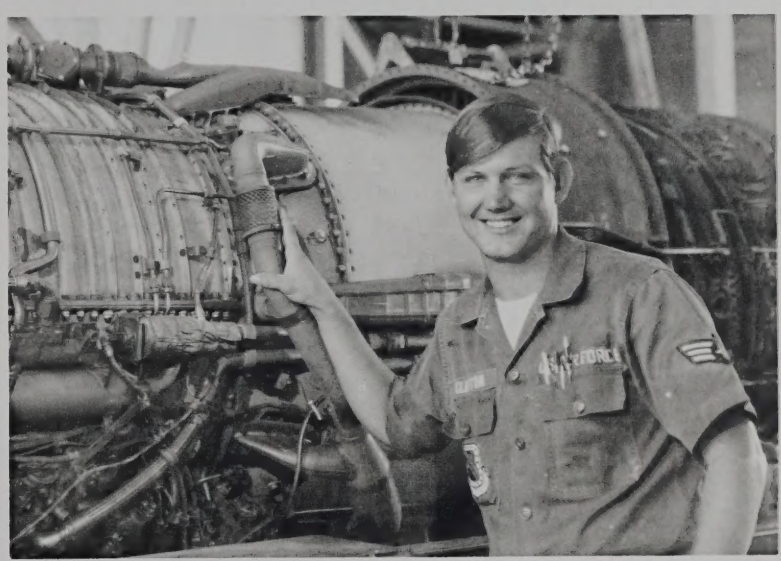
What is wrong with ripping it off,
It is lot faster

Joe Cool sitting a round the dispatch board



This is nothing like instructor duty

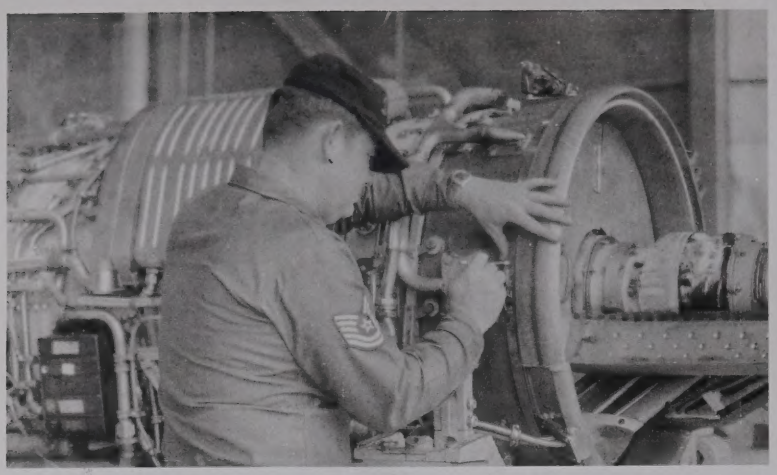
I'm not really "Slow leaking" am I?



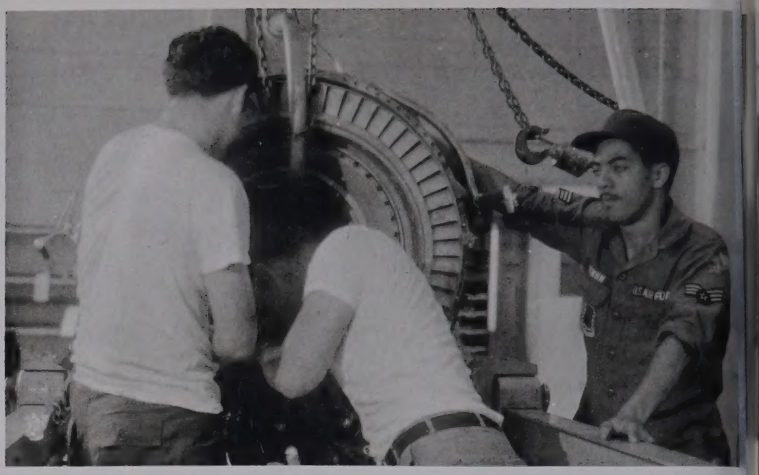
This place really bugs me!!

And this bunch is supposed to lead us straight!

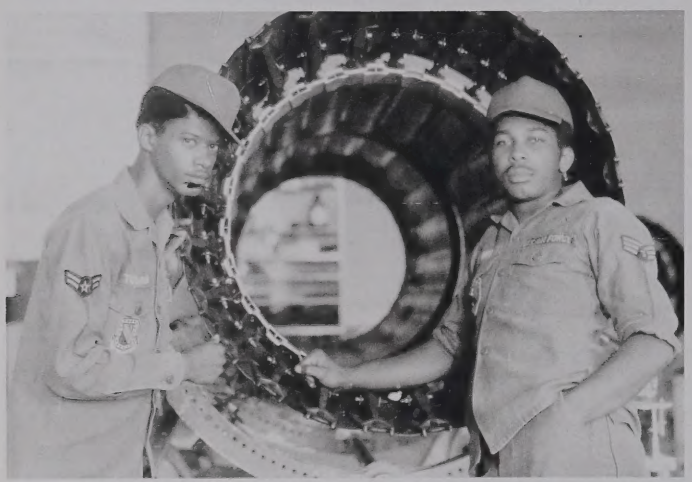
You told me a different way yesterday



I don't know which to turn first
my finger or the bolt



You best do it right

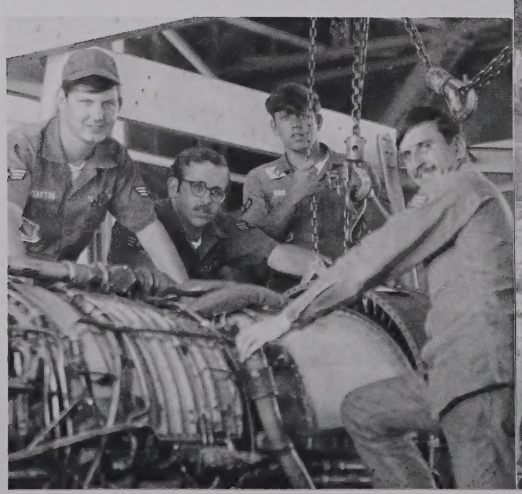


Thrust augmentation specialists

And they said it couldn't be done

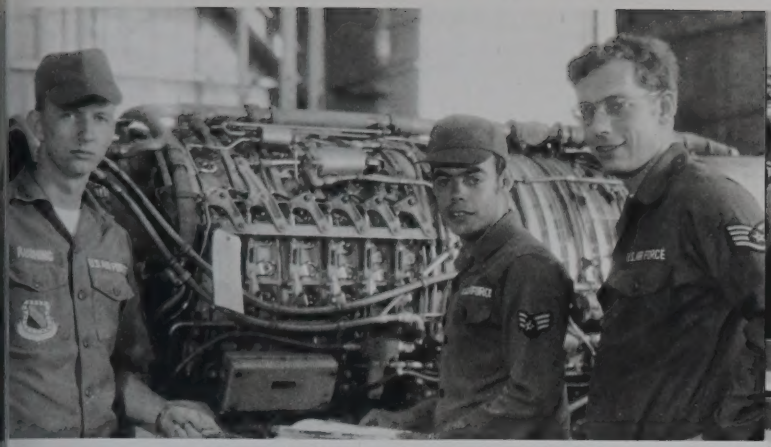
I lost my buddy Gomer

Okay I will show you one more time



Are we going up or down?

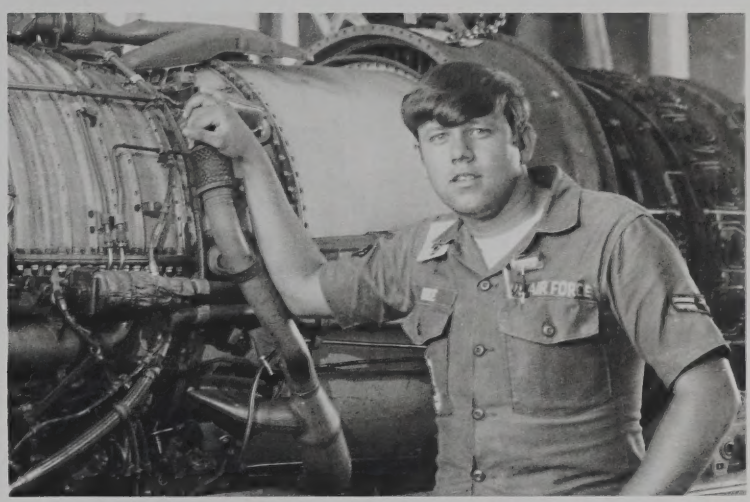
Grease monkeys of '72



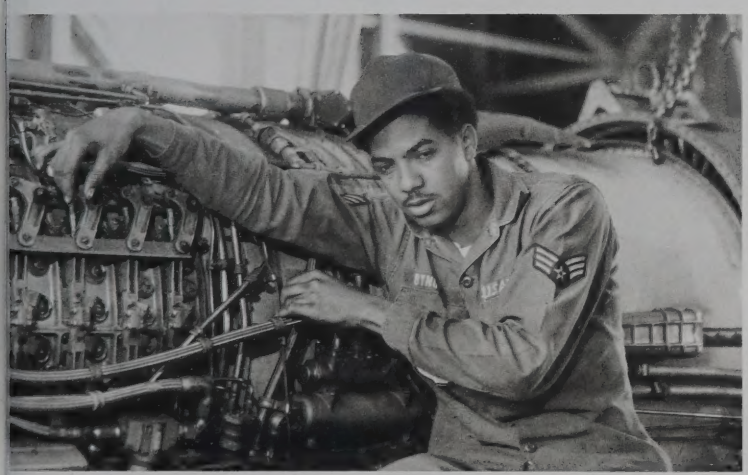
If no find whatsmatta, check airframe for loose nutonen! stick!

F. O. D. again no find whatsmatta?

Be carefull with that knife Geiber

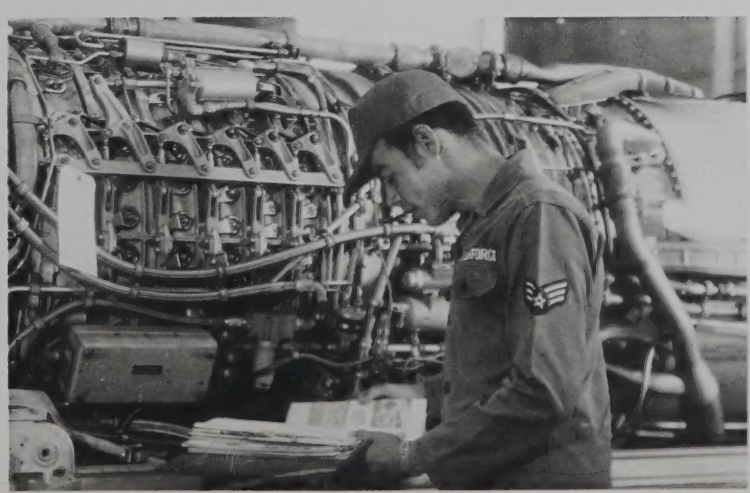


It will never fly again



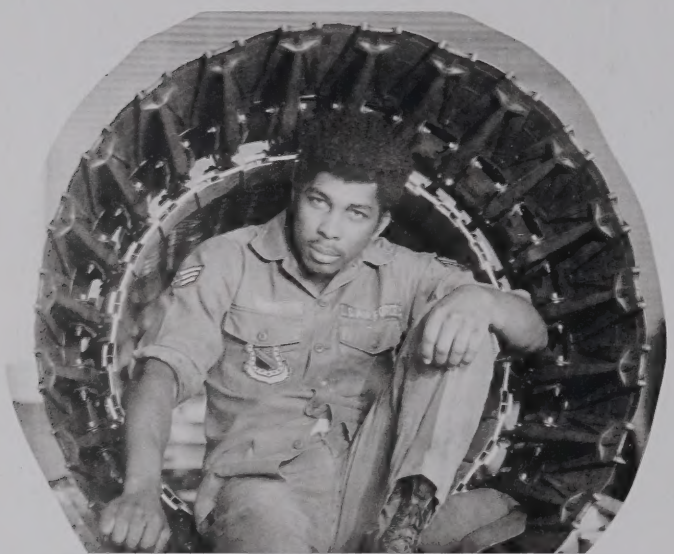
Chicken man

Cloud "9" in the Kun

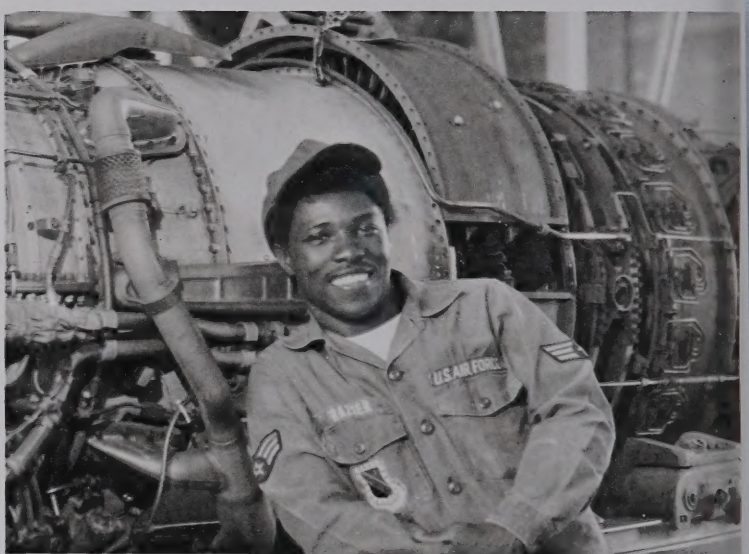


Where is my beer?

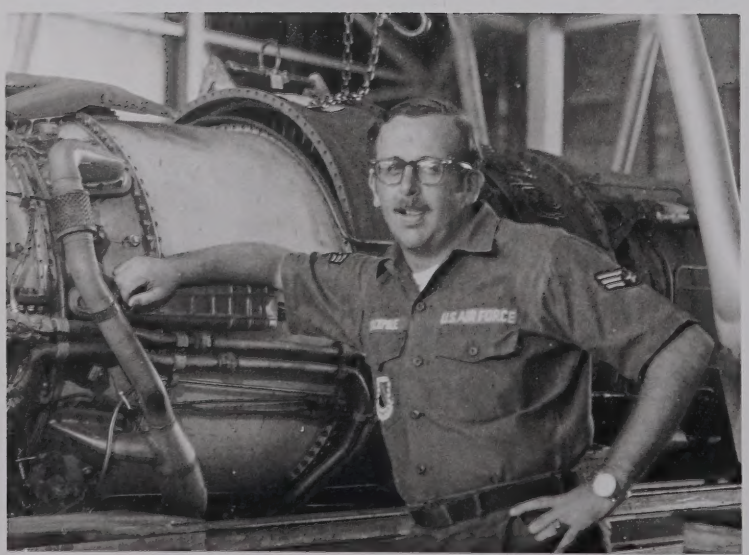
That could make a great motor cycle engine



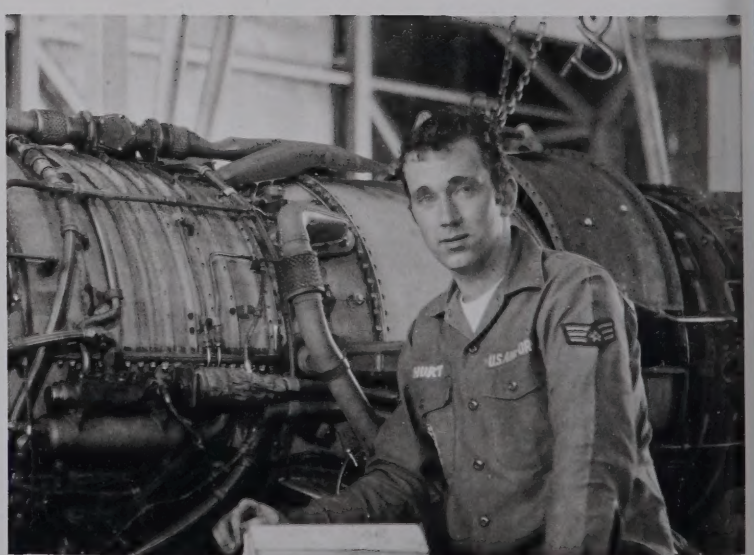
It's been a long time



Sweet Frazier cooling it on the Kun



"Get the mustache trimmed"



I dream of Jeanie

AEROSPACE GROUND EQUIPMENT

I believe you

You break them, we fix 'em

I'll never tell

One more to go

Who says I don't know what the eraser is for

I like it

I'm not hiding anything

Let's make our break

What's this I hear I have to wait to p ut in for an extension here?, I arrived two weeks ago

One month to go

Go to town, Okay?

Is this candid camera?

Bright lights frighten me

Yeh, you're right!

Listen up troops!

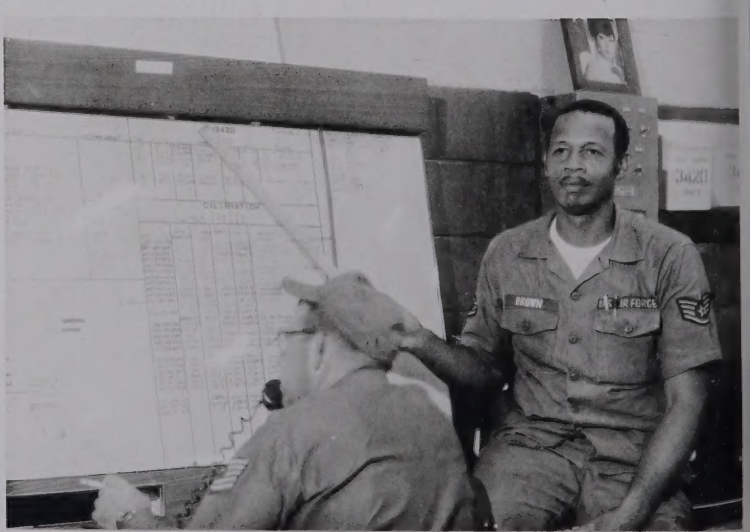
I don't care if the machine shows a due out, deliver the yobo I ordered

No problem, going home soon

Hot dogs, next window please

You watch and I rest

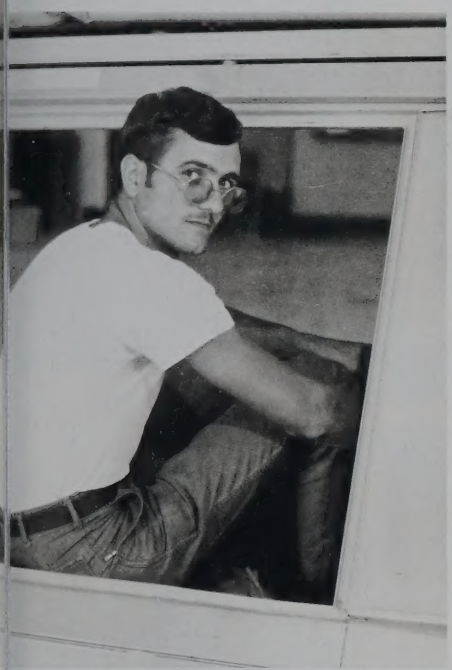
Now, let's hear that one again



What do you mean I can't

I asked for one, not a hundred

What, no mail again?!



Who, me?

If I only had a pillow

Whos trying to hide

Okay!I'm getting out

Who has the dice?
